

**Lubbock Regional Mental Health Mental Retardation Center, dba
StarCare Specialty Health System
Request for Proposals – Open Enrollment
Recruitment Agencies for Permanent and Temporary Staffing Needs**

I. BACKGROUND INFORMATION

StarCare Specialty Health System (StarCare) is a Community Center created under the authority of the Texas Mental Health and Mental Retardation Act, Articles 5547-210, enacted by the 59th Legislature Regular Session, effective September 1, 1965. StarCare is considered a unit of local government and has non-profit status with the Internal Revenue Service. Although StarCare is not a state agency, it contracts with many state agencies to provide services throughout numerous counties surrounding Lubbock, Texas. StarCare has an annual operating budget in excess of \$48,000,000, employs over 470 staff and operates from over 40 service locations. As a governmental entity, StarCare must comply with all applicable local, state and Federal regulations.

II. OVERVIEW AND GOAL OF PROJECT

StarCare is requesting proposals from firms specializing in recruitment of physicians and medical professionals with psychiatric experience for permanent or temporary placement in healthcare facilities. The purpose of this RFP is to select staffing service providers that have the experience and capabilities to support StarCare's staffing needs for psychiatrist and mental health medical service providers (i.e., Nurse Practitioners Psychiatry, Physician Assistants and Medical Doctors) for either permanent placement or temporary assignments on an 'as and when needed' basis. This RFP includes search (retainer) services for psychiatrist and mental health medical service providers. Future staffing services StarCare procures will utilize the service providers selected from this RFP. Any service provider that has already previously done business and provided StarCare with such staffing service offerings and wish to compete to become a vendor must submit a response to this proposal. The successful providers will become part of the provider network and will be issued Services Agreements that StarCare may commission in the future. Due to the 'as and when required' nature of this initiative, StarCare cannot guarantee any minimum level of utilization or expenditure commitment to vendors.

III. CONSIDERATION REQUIREMENTS
